THE POWER  
TO REACH PEAK  
PERFORMANCE

Design, Service, Sales and Installation of Production, Measurement, Automation and Controls Systems

## PRO-TEK PRECISION AND PROFESSIONALISM

**Simplify Operations, Lower Total Cost.**

We can design your system, build it, install it, and then service and maintain it - everything you need to simplify operations and reduce your total cost of ownership.

**Automation Expertise.** Pro-Tek has the expertise and capabilities needed to design automation systems that help you get control of your operations.

**Reliable Field Services.** Our service technicians are rigorously screened for experience, skills and reputation to ensure our personnel work like a part of your team and can proactively solve problems.

**Precision Fabrication.** Our highly skilled personnel have the knowledge, skills and expertise to fabricate reliable and durable equipment to complete your solution.

# BENEFITS OF CHOOSING PRO-TEK

Whether you choose Pro-Tek for a complete solution or just one element, we deliver precision and safety every time giving our customers the Power to Reach Peak Performance.

1

**SAFETY**

We boast an enviable safety record.

2

**FLEXIBILITY**

Turnkey solutions or specific needs - we can help.

3

**COST CONTROL**

Outsourced services save you money.

4

**FAST**

Rapid deployment so you realize benefits quickly.

5

**EXPERTISE**

Deep experience designing, manufacturing, operating and maintaining automation systems.

6

**OPTIMIZED**

Systems and expertise to generate operational efficiencies, high uptime and profitability.

THE POWER TO REACH  
PEAK PERFORMANCE

## FIELD SERVICES

Since 2010 Pro-Tek has delivered safe, professional and proactive field services for leading operators.

- Precision measurement for natural gas and liquids
- Instrumentation and calibration services
- Automation system service, maintenance and repair
- Programming
- Embedded measurement and automation technicians

## MEASUREMENT SOLUTIONS

Pro-Tek accuracy and precision ensures you get paid for what you produce. We can provide the entire solution or provide the high-quality components and services needed to complete your program.

- Design, Build, Install, Commission and Service Measurement Equipment
- Meter Runs
- Precision Calibration
- Gas Sampling
- Professional Measurement Program Management
- Compliance With AGA, API and BLM Requirements

## AUTOMATION CONTROL, PRODUCTION AND SAFETY SYSTEMS AND PRODUCTS

Expertise to design your automation control, production and safety systems with the right products for reliable and accurate performance.

- Automation and Control systems (electronic and pneumatic)
- Safety Systems
- Production Systems
- Full-service SCADA platform
- Flares and Compliance Solutions
- Lightning and Static Protection
- Satellite Call-Out Units

## DESIGN AND FABRICATION

Pro-Tek is an expert designer and fabricator of high-quality, customer-driven production equipment that meet your expectations for reliability, quality and accuracy. Every manufactured product includes a Certificate of Compliance.

- Meter Runs
- Automated Tank Blower Systems
- Tank Vapor Management Skids
- Solar Air Compressor Skids
- Solar Battery Backup Units
- Manifold Skids
- PLC Panels

We also refurbish and repair existing equipment with a one-year warranty.
